SUMMARY

I am a Software Engineer focused on building secure, scalable, and AI-powered systems that solve real-world problems. My work combines backend engineering, cloud technologies, and cybersecurity to design reliable APIs, scalable architectures, and high-performance applications. I have been trained through programs like ALX Software Engineering and continue to grow in AI, Computer Vision, and cloud-native systems. I am passionate about creating solutions that are not only functional but also secure, efficient, and built for real users and businesses. Currently, I am expanding my expertise in Artificial Intelligence and Computer Vision to build intelligent, production-ready systems. Through this, I enrolled and graduated in AWS AI/ML Scholars in Nondegree Agentic Engineer Program.

EXPERIENCE

❖ Teaching Assistant, IEE Rwanda Dec 2024 — Jun 2025

Kigali, Rwanda

I led and facilitated tech-integrated CPD sessions with IEE Rwanda, empowering teachers through innovative digital tools and leadership in competency-based education.

❖ Software Engineer , ALX Africa Jan 2025 — Feb 2026

Kigali, Rwanda

Tech-driven community Collaborated with cross-functional teams to deliver 15+ projects within deadlines

Developed and maintained responsive web applications increasing user engagement by 98% Optimized backend APIs improving data retrieval speed by 15%.

- I Collaborated with cross-functional teams to align tech solutions with goals.
- I enhanced system security, reducing vulnerabilities by 60% through audits.
- I developed scalable applications, boosting user engagement by 30%.

❖ Software Developer, EF NEXUS Jul 2025 — Dec 2025

Norrskén/Kigali, Rwanda

Empowering youth innovative and AI driven Education toward world-class Education. Developed responsive UI components enhancing user experience by 95% at EF NEXUS. Collaborated with UX designers to implement features that increased retention by 75%. Led integration of new design frameworks reducing development time by 65%.

- I developed high-performance applications, boosting user engagement by 30%
- I collaborated with cross-functional teams, driving project success rates up 40%

❖ Technical Lead Volunteer, Rwanda Cancer Relief Jul 2025 — Current

Collaborated with Rwanda Cancer Relief to implement technology-driven solutions advancing cancer education, care, and accessibility.

- I implemented best practices, reducing bugs by 25% in final products.
- I collaborated with stakeholders to align tech solutions with business goals.
- I drove innovation by introducing new technologies and tools.

❖ Software Engineering Intern, Bittwork Technology Oct 2025 — Dec 2025

- I developed innovative software solutions, boosting team efficiency by 30%.
- I collaborated on cross-functional teams, enhancing project delivery speed.
- Designed user-friendly interfaces, increasing user satisfaction ratings.

❖ ALX Ventures Rwanda Ambassador, ALX Africa Apr 2026 — Current

Kigali, Rwanda

- I cultivated strategic partnerships to drive business growth in Rwanda.
- I led initiatives that increased brand awareness by 40% in target markets..
- I facilitated community outreach, resulting in a 25% increase in participation.

EDUCATION

❖ Ecole Secondaire Bumbogo Sep 2021 — Jun 2024

High school graduate, Mathematics-Physics-Computer Science Kigali

Mathematics-Physics-Computer Science

- I graduated with honors, achieving a GPA of 3.67/4.0
- I completed Embedded and Robotics BootCamp

❖ University of Rwanda Oct 2025 — Jun 2029

BS in Computer Science (Hons) Kigali, Rwanda

- I completed a capstone project on AI algorithms, earning top accolades.
- I participated in coding competitions, securing 1st place in regional events.
- I'm learning with Honors in Computer Science

❖ AWS AI/ML Scholars Apr 2026 — Current

Nonedegree in Agentic Engineering

USA

- I completed advanced projects in autonomous systems design.
- I developed innovative solutions for real-world engineering challenges.
- I collaborated on interdisciplinary research with industry professionals.

❖ ALX Africa Jan 2025 — Feb 2026

Nonedegree Certification in Software Engineering

Nairobi, Kenya

- I developed a 12 full-stack applications as a capstone projects
- I gained proficiency in multiple programming languages, Software engineering methodologies and Working agile team frameworks.
- I achieved top 1% in final assessments among East African participants.

❖ ALX Africa Jan 2026 — May 2026

Nonedegree Certificate in Cybersecurity

Kigali, Rwanda

- I completed hands-on projects simulating real-world cyber threats.
- I earned certification in ethical hacking and network security.
- I achieved top 10% ranking in cybersecurity coursework.

❖ ALX Africa Jan 2025 — Apr 2025

Certification In Professional Foundations

Kigali, Rwanda

- I achieved top 5% ranking in cohort for comprehensive assessments.
- I gained professional skills in workplace frameworks and digital age skills required tech industries working framework places

❖ Google Oct 2025 — Feb 2026

Cerfications and Skill badges in Cloud Computing

USA

- I earned skill badges demonstrating expertise in cloud architecture.
- I completed advanced coursework in cloud security and management.
- I participated in hands-on projects enhancing practical cloud skills.

SKILLS	
Semantic UI/UX design	Responsive Design
Prompt Engineering	Project Management
Agile Team Development	Responsible AI and Agentic Development
Version control	Leadership

LANGUAGES

Kiswahili Advanced • English Native • Kinyarwanda Native • French Advanced

ACHIEVEMENTS

4th Place, Innovate With Google Cloud Hackathon

CERTIFICATIONS AND LICENSES

ALX Software Engineering

ALX Cybersecurity

Google Cloud Computing(24+ Skill Badges)

ALX Freelancer Academy

ALX Professional Foundations

AWS AI/ML Practical Challenge

AWS AI/ML Agentic Nonedegree Certificate

HEADLINE

Software Engineer| Cybersecurity Analyst| Artificial Intelligence enthusiast| Entrepreneurship Consultant| ALX Ventures Rwanda Ambassador| Audacity and AWS AI/ML Alumnus

HOBBIES AND INTEREST

- | | |
|--|---|
| ❖ Singing and Song Writing | ❖ Health-Tech & Social Impact Projects |
| ❖ UI/UX Leadership & Human-Centered Design | ❖ EdTech Innovation & Teacher Development |
| ❖ Cybersecurity & Sustainable Tech | ❖ Sustainable Tech & Climate Change Solutions |
